

Boat & Dock Protection

**MARINA
PRIVATE
SERVICE
GAS**

Among the top three reasons people quit boating is a fear of damaging their boat. HydroHoist Boat Lifts is now offering products to protect the boat and dock from entry to exit. Make your next new dock, expansion or renovation complete with these high quality, uniquely designed protection products.

BOW BUMPER

- Self-centering for boat or PWC
- Bull-nosed top to prevent "slamming" on the dock
- Durable UV-resistant polyethylene

CORNER BUMPER

- Longer life with rounded corners and UV-resistant polyethylene
- Push-out center to wrap around corner uprights on covered docks

ULTRAFENDER™

- Perfect for gas and premium docks
- Bull-nosed top to prevent "slamming" on docks
- Family design

HYDROFENDER™

- Step-up edging alternative for traditional rub rail
- Designed to easily attach to a 2 x 6 header (5.5" flat back)
- Bull-nosed to prevent "slamming" on the dock
- Easily separates into two sections for sizing
